Experience

Sep 2020 → Current **Web Development Team Lead** – Orient Software Development Corp. Vietnam
yii2, php, redis, docker, ckeditor, gruntjs, jquery, twitter-bootstrap, less, elasticsearch, rabbitmq

Work with Conexus and Singapore MOE (Ministry of Education), being responsible for one of the modules of their E-Learning government product OPAL (One Portal All Learners), called CSL (Collaborative and Social Learning). It is a web app that provides communities for learners. Main tasks include:

Manage a small team of web development to make sure they follow the SCRUM framework. Implement features for the web app by being fullstack developer. Work on improving the web app by resolving SSAT and SPT issues.

Oct 2019 → Sep 2020 **Web Development Team Lead** – Conexus
yii2, php, redis, docker, ckeditor, gruntjs, jquery, twitter-bootstrap, less, elasticsearch, rabbitmq

Work with Conexus and Singapore MOE (Ministry of Education), being responsible for one of the modules of their E-Learning government product OPAL (One Portal All Learners), called CSL (Collaborative and Social Learning). It is a web app that provides communities for learners. Main tasks include:

- Manage a small team of web development to make sure they follow the SCRUM framework.
- Implement features for the web app by being fullstack developer.
- Work on improving the web app by resolving SSAT and SPT issues.

Jan 2018 → Oct 2019 **Web Developer** – Conexus
jquery, reactjs, asp.net, javascript, less, asp.net-mvc, twitter-bootstrap, svg, webpack

Work with Conexus and Conexus SG, being responsible for the front-end of their website products, includes Conexus Companion and CSC. Main tasks include:

- Upgrade & migrate version or frontend web libraries.
- Create & update web components.
- Improve the workflow and infrastructure of the client-side.
- Refactor code, fix bugs, make changes to codes when needed.
- Follow the SCRUM framework.

Nov 2014 → Dec 2017 **Front-end Developer** – Orient Software Development Corp. Vietnam
jquery, less, asp.net-mvc, twitter-bootstrap, svg

Create & maintain features for web application that is responsive and functions for as many devices and browsers as possible to create a seamless experience. That includes: create web page in ASP.Net MVC using Razor syntax, create front-end scripts using jQuery, styling UI with LESS and font-icons, bundling code with Microsoft Optimization, utilizing Javascript Module technique to organize features, design new UX for web app. Also create and modify graphics such as font icons, transparent images.

Oct 2013 → Sep 2014 **Full Stack Developer** – VNYI
extjs, cordova, telerik, sencha-architect, winforms, devexpress, sql-server, kendo-ui

Develop & maintain features for POS app using C# Winforms, DevExpress. Develop & maintain features for web app using ExtJS. Develop new cross platform mobile app using Cordova, Telerik, Kendo UI. Write & maintain database using SQL Server by writing stored procedure.

Education

Sep 2009 → Mar 2014 **Software Technology Bachelor** – Hoa Sen University
c#, winforms, asp.net, sql-server

Graduating Project was built with a team of 4. It is a solution of ordering for coffee shops. It has a mobile app used for ordering by waiter, built with Windows Phone SDK; and a desktop app used for managing and accounting, built with C# WPF. The mobile app sends data to the database, using SQL Server, and the desktop app displays changes in realtime, using SignalR.

Certifications

Public Artifacts

Aug 2018 **Working with multiple branches in Git with Stash (Basics)** – <https://medium.com/@nvtung/working-with-multiple-branches-in-git-with-stash-basics-fb2433fadd0c>
git, atlassian-sourcetree

How do we save our code without creating a commit?

Readings

How to Fall Asleep in 120 Seconds – Sharon Ackman – <https://medium.com/s/story/combat-tested-training-unwind-and-sleep-anywhere-in-120-seconds-27d5307b7606>

Trouble sleeping? Here's a military-tested trick for guaranteed slumber

Dark Pattern Design—It's Downright Unethical & Irresponsible – Ainsley Yeung – <https://uxplanet.org/dark-pattern-design-its-downright-unethical-irresponsible-c2a3612a1640>

The Norwegian Consumer Council (Forburkerrådet) recently has released a report, Deceived by Design —it reveals some tech companies are using dark patterns to discourage us to exercise our rights to privacy. Dark pattern design appears to be innocent but are they ethical? Are you using dark pattern design in the name of offering a great user experience?

What London's Underground Map Can Teach You About Design – Eugen Eşanu – <https://uxplanet.org/what-londons-underground-map-can-teach-you-about-design-7178cc4e4c39>

How did we come to understand the world around us? How do we know the geographical location of places, countries, cities?
